CONFIDENTIAL • MARCH 2026

payphone

The financial operating system for migrants.

The first unified collect-and-remit platform for 27M LATAM migrants in the U.S.

$361M processed • 143K active users • 15 countries • Profitable

SCROLL TO EXPLORE ↓

01 — THE DIFFERENTIATOR

Collect here.
Send home. One tap.

Payphone is the only platform that unifies cash & digital collection in the U.S. with instant cross-border remittance to LATAM — creating a digital financial identity for people who have never had one.

Employer pays Miguel
Tap-to-Phone

Spends at merchant
Payphone POS

No bank account, SSN, or credit history required. The employer's phone becomes a POS terminal. The worker's phone becomes a bank. One platform captures economics on both sides of the corridor — no competitor can say that.

9

Ways to make and receive payments — tap-to-phone, QR, P2P, virtual card, physical Mastercard, wallet, and more

0%

Cost for P2P transfers within the ecosystem — free value transfer drives adoption

<48h

Full onboarding with no branch visit — digital-first, mobile-native experience

payphone

02 — HOW MONEY MOVES

Every dollar pays us up to three times.

The Payphone ecosystem earns revenue at each stage of the money lifecycle — collection, float, and disbursement.

STEP 1

Load / Collect

User receives payment via tap-to-phone, QR, or direct deposit into Payphone wallet

5.5% commission

STEP 2

Hold / Float

Funds sit in wallet — Payphone earns yield on aggregate float balances

Interest yield

STEP 3

Send / Remit

Cross-border transfer to family in LATAM — FX spread captured at conversion

FX spread

STEP 4

Spend / Card

User or recipient spends via Mastercard or at Payphone merchant — interchange earned

$0.18/txn + interchange

UNIT ECONOMICS

CAC	Lifetime Value	LTV / CAC	Payback
$38	$232	6.1x	<6mo

REVENUE STREAMS (2025 ACTUAL)

STREAM	REVENUE	% TOTAL	HOW
Wallet & Collections	$11.6M	85%	5.5% commission on every dollar loaded
Cross-Border	$1.0M	7%	FX spread + float yield
Banking & Cards	$0.2M	1%	Interchange + per-txn fee

payphone

03 — THE OPPORTUNITY

$570B flows through our target users every year.

Nobody owns both wallets. Remittance apps don't collect payments. Neobanks don't remit. Payment processors don't serve the underbanked. That gap is our entire business.

$120B

U.S.-to-LATAM remittances annually — growing 8% year over year

$450B+

Domestic consumer spend by LATAM migrants in the U.S. — rent, groceries, services

27M

LATAM migrants in the U.S. — 47M including second generation, growing 3% annually

45%

Underbanked or cash-reliant — no SSN, no credit history, no financial identity

The serviceable revenue opportunity is **$12.5B**. We need less than 1% to build a billion-dollar business. Our bottoms-up model targets **10% penetration** across 10 U.S. states, yielding **~$265M revenue by 2029**.

04 — PROOF IT WORKS

$361M processed. Already profitable.

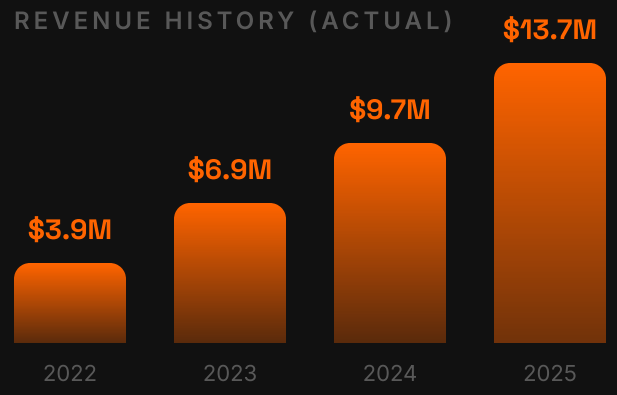
52% Revenue CAGR (2022–2025)

24% Adj. EBITDA margin

143K Active users 15 countries

465+ Payments per minute

REVENUE HISTORY (ACTUAL)



REGULATORY MOAT

12-Year Head Start

10+ certifications across 15 countries. 8 independent AML audits — zero critical findings. PCI-DSS compliant. New entrants need 3–5 years and $10M+ to replicate.

NETWORK MOAT

Two-Sided Flywheel

We capture economics on both ends. A migrant in NYC sends money → family in Quito receives in Payphone → spends at Payphone merchant. 70% of new users via word-of-mouth.

05 — FINANCIAL SNAPSHOT

$320M revenue by 2029. Path to $2B GTV.

	2025A	2026E	2027E	2028E	2029E
Total Revenue	**$13.7M**	**$32.0M**	**$95.0M**	**$195.0M**	**$320.0M**
LATAM	$13.7M	$19.0M	$32.0M	$50.0M	$75.0M
U.S. Expansion	—	$13.0M	$63.0M	$145.0M	$245.0M
Gross Margin	56%	49%	48%	51%	55%
Adj. EBITDA	**$3.2M**	**($6.0M)**	**($10.0M)**	**$28.0M**	**$80.0M**
EBITDA Margin	24%	(19%)	(11%)	14%	25%
Cash Position	$3.7M	$20.0M	$8.5M	$30.0M	$95.0M

DOWNSIDE SCENARIO — WHAT IF U.S. RAMP TAKES 12 MONTHS LONGER?

LATAM alone generates **$75M revenue** and **~$20M EBITDA** by 2029. Cash never drops below $8M. U.S. spend can be throttled without killing the company. We invest from strength, not desperation.
